

The EFRS is a non-profit organisation, set up by professional societies that represent radiographers in the geographic continent Europe.

The role of the EFRS is to represent, promote and develop the profession of radiographers in Europe, within the whole range of medical imaging, nuclear medicine and radiotherapy.

Four expert committees for Medical Imaging, Nuclear Medicine, **Radiotherapy** and Research support the work of the Board and guarantee the input from their specific professional fields in the EFRS policies and actions.

EFRS is the Voice for Radiographers across Europe

- Cooperation and collaboration with a growing number of influential stakeholders
 - 47 national radiography societies
 - 67 Educational Institutions in the EFRS educational wing
 - The European Commission and European umbrella organisations like EANM, EFOMP and ESR
 - With International organisations including IAEA, ILO, ISRRT and WHO
- Partner in the ERASMUS+ SafeEurope project about safe and free **Exchange of EU RT Radiography Professionals across Europe**

The EFRS Radiotherapy Expert Committee:

Members

-  Jesse Clarijs - de Jong, MSc
-  Claire Harman, MSc
-  Patrizia Cornacchione, MSc
-  Dr. Ricardo Khine
-  Gianfranco Brusadin, MSc
-  Dr. Ainars Bajinskis
-  Eric Sundqvist, MSc
-  Anastasia Sarchosoglou, MSc (Chair)

Duties and Responsibilities

- is the central point of communication for Radiotherapy
- ensures that the specific needs of Radiotherapy are met
- maintains co-operation with stakeholder bodies in the field of Radiotherapy
- represents EFRS in Radiotherapy matters

Our Work Includes:

- Input in revision of the EFRS EQF (European Qualifications Framework) Benchmark documents for level 6 (Bachelor) and level 7 (Master)
- Input in the bi-annual EFRS surveys
- Advise the EFRS Board in Radiotherapy matters
- Drafting policy documents (<https://www.efrs.eu/publications>)
- Contributing to the *EFRS Future of the Profession - Radiotherapy Education Research and Practice project*
- Initiating research on current radiotherapy topics
- Organising webinars in radiotherapy

EUROPEAN SOCIETIES AND
EDUCATIONAL INSTITUTIONS

BECOME A MEMBER TODAY

Membership Benefits

- Meeting and working with fellow Radiographers from Professional Societies and Academic Institutions
- 50% discount on the Radiography Journal subscription. EFRS member organisations, national societies and educational institutions, should contact the journal directly to access discounts.

- **Research support:** The EFRS distributes survey questionnaires to radiographers and student radiographers in its network and encourages the participation of its members in them.
- **EFRS Online Radiographers Research Network (RRN)**
- **Regular EFRS webinars** on key radiotherapy, research and educational topics.

APPLICATIONS AT INFO@EFRS.EU

BE INVOLVED, MAKE A DIFFERENCE

GROWING THE RADIOGRAPHY PROFESSION
IN RADIOTHERAPY, MEDICAL IMAGING AND
NUCLEAR MEDICINE

The EFRS aims to recognise, support, and promote the work of radiographers in diagnostic imaging and radiation therapy.

1. EFRS PATIENT CENTERED CARE AWARDS

Every spring, consider entering the contest with a project or case study that has a focus on enhancing patient care. The aim of the award is to celebrate the impressive work that radiographers do across Europe, and to raise awareness of the projects that have been implemented into clinical practice and which promote high-quality patient care.* More info at <https://www.efrs.eu/news/122>

2. RESEARCH SUPPORT

Are you looking for participants for your research? Do you want to increase the responses to your survey? The EFRS is here to help you spread your survey through our network! You can apply at info@efrs.eu, any time of the year!*

3. PUBLICATION IN RADIOGRAPHY JOURNAL

Radiography is a peer-review journal that promotes evidence-based practice in diagnostic imaging and radiotherapy covering topics related to education and training, clinical practice across all areas, and advanced practice. The new Editor in Chief Jonathan McNulty welcomes you and encourages you to submit your manuscript to the **official journal of the EFRS**. Nick Courtier is the journal's Associate Editor for radiotherapy.

*for members of the EFRS National Societies and Institutions

Upcoming Radiotherapy Webinars 2022:

Management and leadership in
healthcare and Radiotherapy
24th May 2022 (8PM CET)

How can healthcare professionals
contribute to a sustainable world?
Developing TR/RTTs' professionals green
skills.
8 June 2022 (8PM CET)*

Digital content creation by TR/RTTs:
developing digital skills
23 June 2022 (8PM CET)*

Patient advocacy for radiotherapy
radiographers/ radiation therapists
5 July 2022 (8PM CET)

*Dates To be confirmed
